

Intake

Proper intake, better results

We always start with a comprehensive and personal intake. According to our philosophy, this is essential to the success of your training.

How do we approach this?

In order to identify the perfect learning process for you, your first step will therefore be a one and a half hour introductory interview with your future trainer. He or she will test your existing knowledge of the language and discuss your learning style, desires and goals, so that these can be taken into account during the classes. After the interview you will receive a clear report with a lesson plan for your recommended training course.
